

Myra Bluebond-Langner, *The Private Worlds of Dying Children* (Princeton UP, 1978):
166, 168.

	SELF-CONCEPT	EXPERIENCE	KNOWLEDGE
1	seriously ill	diagnosis and first hospital visit	learns "it" is a serious illness
2	seriously ill and will get better	first remission and clinical visits	learns names of medications and side effects
3	always ill and will get better	relapses and returning to hospital	learns purposes of treatments and procedures
4	always ill and will never get better	on set of complications	learns disease as a series of relapses, but without connection to death
5	dying and will die	another sick child's death	learns diseases as a series of relapses culminating with death
